## *Feel Beautiful... Look Stunning.*

*Your wedding day is very special, and  
you deserve to look your absolute best.*

Mel and her team will listen to what you want, and together create a look that you and your bridal party will love and feel happy with, from a soft, natural look, to the most glamorous look, or anything in between.

Bridal makeup is not just about applying makeup, it's an art. When creating the perfect look for your big day, the team at Vanity has into consideration the style and theme of your wedding, the colour of both your gown and your bridesmaids' gowns and flowers, the time of your ceremony as well as your own unique beauty.

There is something special about being able to help a bride get ready on her wedding day. Vanity uses only the best products and current techniques so you can be sure to have the look of your dreams.

Although now having a boutique salon, set up perfectly for the bridal party and offering all aspects of the beauty industry, Mel still wants to offer her freelance service to any brides who would prefer her to travel to their chosen location throughout the south east of South Australia and the western district of Victoria.

Vanity can also provide professional services in spray tanning, nails, eyelash extensions, tinting, waxing, pedicures, manicures and much more.
